

LIGHT WEIGHT GRAB RAIL

The newly designed non-lit, lightweight grab rail is built to maximize safety and durability that goes beyond industry standard. This 1 ¼" aluminum knurled rail is a great addition to Hansen's current family of rails, providing a uniformed aesthetic for lit and non-lit rail options at a competitive price. These rails are available with our various reflective tape inserts and are offered in 6' and 12' sticks as well as custom rail assemblies that include stanchions and gaskets.

Features & Options:

- Lightweight aluminum knurled
- Internal keying feature for interlocking
- Anti-slip surface for secure gripping
- Built in corrosion protection
- Clear & black anodizing options
- Reflective insert color choices
- 1-year warranty
